RECORDS DISPOSITION SCHEDULE FOR COUNTER SURVEILLANCE UNIT REPORT (CSUR) DATABASE

Description:

The Counter Surveillance Unit Report (CSUR) database (pronounced scissor) is used to report and store Counter Surveillance Unit (CSU) information. CSUR is a central repository for recording suspicious activity. It contains source data pertaining to counter surveillance incidents, including persons, vehicles, and aircraft. Analysts collate, evaluate, and disseminate this information for protective and investigative research purposes.

Specific Restrictions:

CSUR is a highly sensitive law enforcement database. CSUR records are restricted from unauthorized access through appropriate administrative, physical, and technical safeguards. In addition, those with specific need to know are assigned access rights. The CSUR system is exempt in whole, or in part, from public disclosure by the Department of Homeland Security and United States Secret Service under the Privacy Act of 1974 Implementation of Exemptions, Department of Homeland Security U.S. Secret Service—004 Protection Information System of Records. The information contained in this system relates to the preparation and execution of law enforcement physical protection of designated individuals.

Specific Legal Requirements:

The CSUR database system supports the USSS protective mission under 18 U.S.C. 3056, section 1, Powers, Authorities, and Duties of the United States Secret Service.

Disposition Information:

1. System Inputs

CSUR receives source data from information acquired from counter surveillance activities, name and identifier searches of the National Crime Information Center (NCIC), National Law Enforcement Telecommunications System (NLETS), Lexis-Nexis, Targeted Violence Information Sharing System (TAVISS), Master Central Index (MCI), and CSUR. The information extracted from these sources is manual inputs for the CSUR system.
