NTH-7 Year 2000 Conversion Files. FEMA, as one of 34 sector coordinators supporting the President's Council on Y2K Conversion, chaired and coordinated the efforts of the Emergency Services Sector (ESS) working group. FEMA was responsible for increasing awareness of emergency services providers throughout the nation and for encouraging them to assess the readiness of their technology-based systems to support operations before, during, and after the clock rolled over to the Year 2000. FEMA's goal was to ensure that all members of the nation's emergency services community would be able to operate normally through the Y2K conversion period. FEMA, its ESS partners, and state and local counterparts worked closely and continuously to improve their Y2K readiness postures. To ensure that it was "business as usual" for emergency services providers, FEMA undertook activities in the areas of outreach and partnership, training, and exercises, and providing grants to States. The records serve as documentation to support the above-mentioned activities. In broad terms, they include information on: (1) budget, (2) exercises, (3) working group activities, (4) workshops, (5) assessments and surveys, (6) publications, (7) congressional issues, and (8) miscellaneous correspondence.

PERMANENT. Cut off at the close of the President's Council on Y2K Conversion. Retire 1 year after cutoff. Transfer to the National Archives 10 years after cutoff.
