Communications Asset Database (CAD)

NARA # NI-563-08-43

The purpose of this system is to have an available group of telecommunication assets that are readily accessible for deployment during Emergency Support Function (ESF) #2 activations

ESF #2 communications supports the restoration of the communications infrastructure, facilitates the recovery of systems and applications from cyber attacks, and coordinates Federal communications support to response efforts during incidents requiring a coordinated Federal response (hereafter referred to as "incidents") This ESF implements the provisions of the Office of Science and Technology Policy (OSTP) National Plan for Telecommunications Support in Non-Wartime Emergencies (NPTS)

ESF #2 also provides communications support to Federal, State, tribal, and local governments and first responders when their systems have been impacted, and provides communications and information technology (IT) support to the Joint Field Office (JFO) and JFO field teams

Master File / Data:

Contains approximately 1200 telecommunication assets which are available for use from various federal and commercial Telecommunications sources

Disposition:

TEMPORARY Cut off at termination of the system Destroy or delete at cutoff or when no longer needed, whichever is later
