Program: Office of Field Operations

Applicability: USCIS Applicant Support Centers (ASCs)

Specific Restrictions: Personally identifiable information and possible law enforcement sensitive information. FMNS and records contained within are protected from unauthorized access through appropriate administrative, physical, and technical safeguards. The safeguards include restricting access to those with a need-to-know to perform their official duties and authorization to access the system through the Office of Field Operations.

Vital Record: No

Specific Legal Requirements: 8 USC §§ 1101 et seq.

a. INPUTS

GRS 20, ITEM 2

Categories of Records in the System:

FMNS contains biographical information collected in the process of performing and reviewing background checks (i.e., the process by which USCIS vets an applicant/petitioner for any negative criminal history and verifies applicant/petitioner identity). The records in FMNS are comprised of biographical information entered by the USCIS ASC staff and the fingerprint images that are collected at the USCIS ASCs. All of this information is collected on FD-258 fingerprint cards that are then forwarded to the corresponding USCIS Service Center (SC) associated with that USCIS ASC for scanning into the applicant's electronic record on the Benefits Biometrics Support System (BBSS)

TEMPORARY. Delete/Destroy after the data has been transferred to the BBSS and verified. ~~(Data is not retained longer than 30 days on FMNS)~~

ENTERED INTO THE MASTER FILE AND VERIFIED.
