

## Request for Records Disposition Authority

Records Schedule Number      DAA-0406-2017-0001

Schedule Status      Modified Approved Version

  

Agency or Establishment      Federal Highway Administration

Record Group / Scheduling Group      Records of the Federal Highway Administration

Records Schedule applies to      Major Subdivision

Major Subdivision      Office of Infrastructure

Minor Subdivision      Office of Bridges and Structures

Schedule Subject      National Tunnel Inventory (NTI)

Internal agency concurrences will be provided      No

Background Information      The NTI is one of FHWA's mission critical systems. It is a collection of tunnel inventory and inspection data collected under the auspices of the National Tunnel Inspection Standards (NTIS), Title 23 USC Section 144 and 23 CFR 650E. These standards are applicable to all highway tunnels located on public roads. Data is collected from all 50 States, the District of Columbia, and Puerto Rico, as well as Federal agencies and tribal governments which have tunnels under their jurisdiction that are open to the public. The NTI follows the Specifications for the National Tunnel Inventory. Approximately 475 tunnel records are stored and maintained per year. The system contains data beginning in 2015. In addition, the NTI system interfaces with the Fiscal Management Information System (FMIS) [scheduled as Permanent under NARA disposition authority N1-406-08-10/33b] in order to provide FMIS with valid tunnel structure numbers for tunnels eligible for Federal funding. Access to the system is controlled by FHWA's User Profile Access Control System (UPACS) system.
