DISPOSITION: TEMPORARY

Delete when two years old.

13. **Public Reading Room Log.** The purpose of this application is to provide an inventory log of past and active USTR public documents and is used to facilitate the retrieval of copies. It provides the document names and location of documents that are no longer on the active list in the Public Reading Room. This is a dynamically changing list.

DISPOSITION: TEMPORARY

Delete when two years old.

14. **Registration Database.** This application was developed for conferences to provide a means for the administrative coordinators of the U.S. participants at Ministerial and signing ceremonies to have all pertinent information necessary on the U.S. delegation and all credentialed U.S. dignitaries. It contained personal information on attendees; date of birth, SSN, organizational affiliation, spouse's name, would spouse be attending, passport number, passport expiration, date/time of arrival/departure, hotel reservation information, planned method of hotel payment, credit card number, etc. Printed reports of general information on attendees are placed in the official files. Official Federal records are controlled by the existing USTR Records Schedule.

DISPOSITION: TEMPORARY

Delete when no longer needed to update or produce hard copy.

15. **Section 301 Trade Act Violations.** The purpose of this application is to keep track of cases initiated under Section 301 of the Trade Act. The information contains complaints by businesses and contains the business name, its complaint, the reason for the complaint, and the eventual result. A listing of this information is printed and placed in the official files. Official Federal records are controlled by the existing USTR Records Schedule.

DISPOSITION: TEMPORARY

Delete when no longer needed.

16. **Speech Request System.** The purpose of this system is to keep track of all speech requests for the USTR Ambassador. The information entered into the system documents whether a speech is accepted or declined. There is no follow-up to see if the speech actually occurred. Printed copies of speeches are placed in the official files. Official Federal records are controlled by the existing USTR Records Schedule.

DISPOSITION: TEMPORARY

Delete when no longer needed for convenience of reference.

17. **System Distribution Lists.** Mailing lists created by the system manager to facilitate system messages to users. This is a dynamically changing list of current system users.

DISPOSITION: TEMPORARY

Delete when the agency determines they are no longer needed for administrative, legal, audit, or other operational purposes.

18. **System Security Files.** This system generates data used to monitor user attempts to access any computer resource from USTR; also contains a log file of all accesses to the systems using dial-up and a security report file on every day log-in errors; and firewall security and anti-virus activity logs.

DISPOSITION: TEMPORARY

Delete when the agency determines they are no longer needed for administrative, legal, audit, or other operational purposes.

19. **System Usage Reports.** This system generates data used to monitor system usage and includes electronic e-mail, FAX, disc, and network monitoring logs.

DISPOSITION: TEMPORARY

Delete when agency determines they are no longer needed for administrative, legal, audit, or other operational purposes.
