

# NOTICE - SOME ITEMS SUPERSEDED OR OBSOLETE

## **Schedule Number: N1-142-96-008**

Some items in this schedule are either obsolete or have been superseded by new NARA approved records schedules. This information is accurate as of: 07/28/2022

### **ACTIVE ITEMS**

These items, unless subsequently superseded, may be used by the agency to disposition records. It is the responsibility of the user to verify the items are still active.

Items C1, C2, and D remain active.

### **SUPERSEDED AND OBSOLETE ITEMS**

The remaining items on this schedule may no longer be used to disposition records. They are superseded, obsolete, filing instructions, non-records, or were lined off and not approved at the time of scheduling. References to more recent schedules are provided below as a courtesy. Some items listed here may have been previously annotated on the schedule itself.

Items A1 and B1 were accessioned by NARA: National Archives identifier 6862026.

Items A2 and B2 are presumed to have been destroyed by the agency.

## HEALTH SERVICES CORRESPONDENCE FILES (FORMERLY MEDICAL SERVICES)

Health Services develops, recommends, and executes plans and policies related to the health of employees and others in the workplace who may be affected by TVA activities. It participates in health and development activities, demonstrations, and related cooperative activities with Federal, State, and local agencies, and other organizations. It maintains liaison with the Office of Workers' Compensation Programs, U S Department of Labor, which administers compensation benefits for employees who suffer job-related illnesses, the U S Department of Health and Human Services regarding Federal occupational health programs and affairs, and the TVA Retirement System for coordination of the medical component of employee retirement affairs.

Health Services began on August 23, 1933, as the Health and Medical Section in the Division of Personnel. It became a separate division in 1936 and was named the Health and Medical Services Division. The Office of Health and Environmental Science was established in January 1969 and Dr. James Craig served as the Office Manager. The office had two divisions: (1) The Division of Medical Services (Dr. Craig's organization) and (2) the Division of Environmental Research and Development. Dr. Craig's records were interfiled with the Division of Medical Services correspondence. The Office of Health and Environmental Science, part of the Division of Environmental Research and Development, was dissolved, but both divisions remained as independent organizations. Health Services correspondence for this period is being maintained in the Health Services Correspondence file.

In February 1979, the Office of Health and Safety was established with Ernie Belvin as Office Manager. In June 1982, this organization ceased to exist. Mr. Belvin's records were interfiled with the Division of Occupational Health and Safety files and Health Services files were kept in the Health Services correspondence files. The two organizations remained as independent organizations.

Health Services became part of the new Office of Corporate Services in February 1984. In April 1989, Health Services transferred to the Human Resources organization where Robert Schuett was the Vice President.

In October 1990, Health Services was moved into the Human Resources organization and continues to be a part of that organization.

The Health Services file contains program and administrative records and dates on the records range from 1941 to present. The records were maintained by using the manual alpha-numeric classification system until conversion to the subject-numeric classification system in 1969. The primary subjects for the alpha-numeric system are: Administration, Finance and Accounting, Personnel, Office Space/Facilities and Services, Travel and Transportation, Plant and Equipment, General, Health and Hygiene, Sanitation, Malaria Control, Safety, and Laboratory Services. The primary subjects for the subject-numeric classification system are: Automatic Data Processing, Budget and Appropriations, Cooperation and Coordination, Committees and Councils; Conferences, Emergency Preparedness, Finance and Accounting, Information, Legislative and Legal Affairs, Office Systems and Services, Organization and Management, Personnel, Training and Development, and Travel.

The total accumulation dating from 1941 to 1969 is approximately 50 cubic feet. The total accumulation dating from 1969 to present is 133 cubic feet.

## DISPOSITION

### A Records dating from 1941 to 1968

- 1 Program Records (~~Codes 100-113, 115-129, 130-159, 160-174, 175-184~~) *See attached list*
