1	<p><u>Division of Power Systems Operations</u></p> <p>Storage Battery Reports - Storage battery reports at sub-stations are prepared when the battery is first installed and then at 3-month intervals thereafter. Copies prepared in the area offices of the reports are submitted to the Transmission Maintenance and Test Branch so that they can be kept informed of trouble. Therefore all copies of these reports, maintained by the area office and those kept by the Transmission and Test Branch office, are needed for reference for three years. This will comply with regulations administered by the Federal Power Commission.</p> <p><u>Division of Power Production</u></p> <p>Storage Battery Reports - Forms TVA 6451A-Weekly Storage Battery Pilot Cell Inspection - _____ Plant and TVA 6451B-Monthly Storage Battery Inspection Reports are completed and filed at hydro and fossil fired plants and are needed for reference and Federal Power Commission requirements for three years. Should any unusual readings be noted, the form 6451B is completed by employees in the Electrical Maintenance Group of the Power Plant Maintenance Branch and reviewed by engineers who take another reading using the same form for verification. 1	<p><u>Storage Battery Reports</u> - (continued) filed for documentation to substantiate the warranty requirements of battery performance which is 20 years.</p> <p>Therefore we request that these records be scheduled for disposal in this manner:</p> <p><u>Storage Battery Reports:</u></p> <p>a. Division of Power Production <sup>copy</sup> (Power Plant Maintenance Branch, Electrical Maintenance Group) Destroy upon expiration of warranty (20 years)</p> <p>b. All other copies (maintained by the Divisions of Power System Operations and Power Production) Destroy when 3 years old.</p>		
2	<p><u>Division of Power Production</u></p> <p><u>Clearance Sheet - Generating Plant</u> - Clearance sheet-Generating Plant records requirements for fossil fired and hydro plants <sup>have changed</sup> since the original disposal job was approved. However, the change takes place with nuclear fired plants because these records are considered to be nuclear Quality Assurance records and deviate from the 3-year retention for fossil and hydro plants to six years for nuclear. This 6-year retention period will satisfy those Q/A requirements established by ANSI N45.2.9.</p> <p>Therefore we request that this change be made in the original disposal request II-NNA-1467. The retention period should read:</p> <p>a. Hydro and fossil fired steam plants Destroy when 13 years old,</p> <p>b. Nuclear fired plants <sup>Destroy when</sup> 16 years old,</p>	II-NNA-	1467, Item 20
3	<p><u>Budget Records</u> - Budget records include various files accumulated in the Office of Power in the course of formulating its budget for submission to the TVA Budget Staff, Office</p>

3	<p><u>Budget Records</u> (continued) - of Management and Budget, and to the Congress; and in supporting the request for funds before all three bodies. After the funds have been made available, or expenditure of corporate funds authorized, Power's budgetary control over the funds are in its expenditure accounting records which <u>are not covered</u> by this authorization.</p> <p>Budget records are normally created at all organizational levels. They show proposals from all operating levels as well as the system-wide coordinating work done by formally organized budget offices. Therefore, the records consist of detailed work papers and budgetary statements developed by single operating units, the more significant budget statements and related papers representing consolidated submissions prepared at the division or equivalent level and forwarded to the Financial Planning &amp; Budget Staff, Office of Power, and the records at the highest level pertaining to the budget submission for the entire Office of Power.</p> <p>The budget papers include summary statements of appropriations, corporate funds, and expenditures, statements of contract authorizations, and statements of income and receivables as well as narrative summary statements which highlight the principal features of the requests and immediately related supporting documents. The narrative usually presents the policies and the programs which the budgetary requests are to support. In addition to the summaries, the records include schedules of obligations and statements pertaining to each type of appropriation and fund under which Power operates. Also usually included, is additional supporting data pertaining to objects of expenditures, and figures based on the cost of various types of service operations, such as personnel and payrolling activities.</p> <p>The budget files will also show the revisions made at the direction of the OMB prior to submission to Congress as part of the total presidential budget. In addition it will include copies of testimony before Congressional appropriation committees and of various exhibits and other data submitted in support of the budget.</p>

3	<p>Any division or higher organizational level file may transfer budget material - correspondence files - to the records staging area as space requirements dictate. This would include only budget material representative of the organization forwarding the material to the records staging area. Manager's Files, Office of Power, will be responsible for retaining the record copy of budgets and budget estimates pertinent to the Office of Power. These may be forwarded to the records staging area as space requirements dictate.</p>		
4	<p><u>Division of Power System Operations</u></p> <p><u>Meter Set and Change Orders</u> - Form TVA 6438 is a source document used to record information pertaining to the type of meter, capacity, readings, etc., necessary for contractual and statistical purposes. It reports installation, removal, repair, or change of meters, as well as replacement of any current or potential transformer which results in a change of the meter constant.</p> <p>The information on this record is transcribed in the area office from the worksheet prepared by the test engineers and is used in connection with revenue billing and for statistical purposes. Copies of the form TVA 6438 are distributed to the Power Accounting Office, System Loading Branch, Transmission Maintenance and Test Branch, Area Superintendent, and the Power Plant Superintendent (when applicable).</p> <p><del>The System Loading Branch will retain a copy of form TVA 6438 for the life of the meter. All other copies may be destroyed at the option of the receiving office after they have been superseded, not to exceed 1 year. Worksheet from TVA 6438A may be destroyed after data is transcribed to form TVA 6438.</del></p> <p>The preparation of form TVA 6438 on auxiliary equipment at generating plants has been discontinued. It is recommended that copies of this form prepared on auxiliary equipment be removed from various files of the division and destroyed. This is not to be construed to include the meter set and change orders written on generation or statistical meters at generating plants.</p>	II-NNA-2910, Item 7c

Form TVA 6438 on auxiliary equipment at generating plants -- Remove from files and destroy immediately.</p> <p><u>Division of Power Utilization</u></p>		
5	<p><u>Financial Reports of TVA Power Distributors</u> - These reports are prepared by TVA Power Distributors and reflect the results of operation and financial conditions of the distributors. They are required by the power contracts and assist the Division of Power Utilization in the development and administration of distributor power contracts. The reports provide information for economic and financial studies; comparative cost analyses; and rate reduction studies. They contain data on capital fund sources, contributions, tax and tax equivalent practices, number and salaries of employees, and board member identification and compensation.</p> <p>[The Division of Finance, Power Accounting Branch retains the record copies of the annual report <sup>for an indefinite period</sup> permanently and the monthly reports for 10 fiscal years. A long-term retention of the reports is warranted in the Division of Power Utilization because of the frequency of reference and maintenance of distributor relationships.]</p> <p><del>Power Manager's Files is the official file for the Division of Power Utilization. Monthly reports will be sent to Power Manager's Files from Power Accounting Branch.
