	APHIS Comprehensive Electronic Permit System See attached sheet.		

Agency: **Animal and Plant Health Inspection Service**

Name of System: APHIS Comprehensive Electronic Permit System (ePermits)

Description of System: Under the authority of the Plant Protection Act (7 U.S.C. 7701 et seq.) and the Animal Health Protection Act (7 U.S.C. 8301 et seq.), APHIS regulates the importation, entry, exportation, and interstate movement of animals, plants, biological control organisms, noxious weeds, animal and plant products, and other articles, as necessary to prevent the introduction and interstate spread of plant pests, and pests and diseases of livestock.

The ePermits system enables customers to apply for a permit, pay permit application fees, check the status of a permit application, and view issued permits and other information online in a secure manner. It allows APHIS regulatory officials to issue/permit, track, and rapidly verify the validity of Federal Import Permits.

This system is used to support the permitting processes for the Plant Protection and Quarantine (PPQ), Veterinary Services (VS), and Biotechnology Regulatory Services (BRS) programs within APHIS.

System documentation is covered by GRS 20, item 11a1.

Item 1. Master File

The system contains the following information about customers (those applying for permits): name, address, telephone numbers, e-mail address and organization name and job function; name, quantity, country of origin and intended use of regulated articles (organisms and materials) to be imported; destination addresses for shipments of regulated articles, including contact name and phone number; planned dates and ports of entries for shipments, planned quantities of permitted articles in shipments; for permits that require fee payments, the system uses payment amount, payment date, the payment transaction number, and either the last 4 digits of the credit card number used, the check number, or the APHIS user fee account number. This data may include confidential business information.

The system contains the following information about employees: name, address, telephone number, e-mail address, organization name and job function; for staff who sign permits, the system uses a digital image of the handwritten employee signature for printing the permit.

- (1) a. Records maintained by Plant Protection and Quarantine (PPQ)

DISPOSITION: Temporary. Cut off at the end of the fiscal year in which permit expires. Delete/destroy 10 years after cutoff.

- (2) b. Records maintained by Veterinary Services or Biotechnology Regulatory Services

DISPOSITION: Temporary. Cut off at the end of the fiscal year in which permit expires. Delete/destroy 7 years after cutoff.
