	MACHINE READABLE FILES		
	The Records Schedule for Foreign Trade Division machine readable records is broken into two parts:		
	Part I describes machine readable records that are created during phases of the data processing operation. The retention status of these records does not depend on their content but on their status as intermediate steps toward the creation of a final product.		
	Part II describes machine readable records that represent a final product whose retention status depends on their content. Most of the records described herein are final edited microdata or detail files, but some final edited aggregated files are described also.	7
