## General Information

Agency or Establishment	Department of the Army
Record/Scheduling Group	AU - Army Undifferentiated Scheduling Group
Records Schedule Applies To	Agency-wide
Schedule Subject	Deploy to Redeploy and Retrograde Analytical Tool (D2RRAT) System Master File
Additional Schedule Information	<p>AR 600-8-104, Army Military Human Resource Records Management, prescribes the Army policy for the creation, utilization, administration, maintenance, and disposition of the Army Military Human Resource Record. The Deploy to Redeploy and Retrograde Analytical Tool (D2RRAT), formerly the Enterprise Management Decision Support (EMDS), is a system of systems maintained by the Deputy Chief of Staff, G3/5/7. The primary purpose of the system is to maintain unit readiness, create personnel records that are maintained to manage the member's Army Service effectively and document historically the member's military service.</p> <p>The D2RRAT is a SIPRNET web-based system that provides integrated data from Authoritative Data Sources to present a Common Operating Picture to action officers and Army decision-makers. This capability enables military/government analysts and decision makers to understand the readiness of the Army to respond to global demands in the form of aggregated readiness and operational abilities. This allows the Army to determine the best forces that are available to use to deploy in response to Army requirements for forces across the world. This capability currently enables military/government analysts and decision makers to understand the readiness of the Army to respond to global demands.</p>
