Records Schedule Items

Group Title	Regional Asbestos Management Application (RAMA)
Group Description	RAMA is a web-based .NET application that serves the needs of all installation asbestos stakeholders (Environmental, Safety, Public Works, tenants). RAMA allows field personnel to access the system via a web browser to manage the asbestos abatement program. It provides the ability to identify, track, and display areas within facilities that contain asbestos materials. The application provides real-time reporting to stakeholders in PDF format. Access control is based on role based permissions. The application also provides a geographical information system (GIS) function which displays queries via a mapping experience.
DAA-0127-2017-0007-0001	STATUS: Active
ITEM GENERAL INFORMATION	
Item Title	MASTER FILES
Item Description	Data includes floor plans, archived reports, test results, and personnel training requirements for material containing asbestos (friable and non-friable fibers) located in buildings and structures. NOTE: (All documents which in any way are connected to safety and health concerns regarding all insulation/ asbestos which cover the period 1940-present, must be preserved until further notice. Any records forwarded to the Federal Records Center via SF 135 relating to this subject must be assigned the "ABS" code. This effort supports current litigation efforts.)
