TITLE: FSA Application, Origination, and Disbursement Records

PRINCIPLE OFFICE: Federal Student Aid (FSA)

NARA DISPOSITION AUTHORITY:

DESCRIPTION:

These records consists of files documenting individual student participation in Title IV Federal Student Financial Assistance Programs, including Federal Direct Student Loans, Federal Family Education Loans (FFEL), Federal Pell Grants, Academic Competitiveness Grant (ACG), National SMART, Teacher Education Assistance for College and Higher Education (TEACH) Grant, and Campus-based federal funded programs. Records span the life cycle of student/borrower activities from initial application and eligibility determination through final disbursement of funds.

Application records include, but are not limited to, individual student applications, Free Application for Federal Student Aid (FAFSA); renewal applications; analysis of applicant's need and eligibility determination; Student Aid Reports (SAR) and SAR Information Acknowledgements; Institutional Student Information Records (ISIR); TEACH and ACG and related correspondence and documents.

Loan origination and disbursement records cover a variety of functions related to the delivery, control and accountability of funds, including financial transactions, reporting, program administration, and communications. Records include, but are not limited to, participant information, Statements of Account (SOA), promissory notes, Agreements to Serve (ATS), award and disbursement data, credit checks, loan counseling, account reconciliation, reports, correspondence, and other related documentation.

Files are in hard copy and electronic format, including paper applications, image files, electronic applications submitted via FAFSA on the Web, and data associated with application processing, need analysis computations, eligibility determinations, funds delivery and accountability. (Some legacy records may also be on microfiche.)

DISPOSITION INSTRUCTIONS:

a. Student Application Records

1. Free Application for Federal Student Aid (FAFSA), including FAFSA On-the-Web master data files

FAFSA is an application for federal aid that may be filled out annually by current and anticipating university students (both undergraduate and graduate) and sometimes

ACS Tracking Number: OM:6-106:L73

their parents to determine their eligibility for federal student financial aid. The FAFSA may be completed and submitted in hardcopy or electronically via FAFSA On-the-Web.

2. Central Processing System (CPS) master data files

The CPS is a centralized system for processing financial aid applications and determining Title IV aid eligibility. The CPS utilizes applicant data from the FAFSA and matches with other government systems to determine applicant eligibility. The system determines need for aid through calculation of the Expected Family Contribution (EFC) and disseminates results to students, schools, and state and guaranty agencies.

3. Multi-Year Applicant Database (MYAD) master data files

MYAD consolidates active applicant records and provides an integrated view of each student's historical application data. The MYAD allows for cross-year edits on applicant data to more effectively detect potential errors students and their families may have made on their financial aid applications. In addition, the MYAD includes a student table that allows easier student identification across award years and establishes a base for adopting an enterprise-wide Common Student ID (CSID).

4. eCampus Based/Campus Based System (eCBS) master data files

This system provides a web-based Fiscal Operations Report and Application to Participate (FISAP) in the Campus-Based programs to Title IV institutions. The application data is used to compute the amount of funds needed by each school for a particular award year. The Fiscal Operations Report data is used to assess program effectiveness, account for funds expended during an award year, and as part of the school funding process. eCBS is used to calculate tentative and final award amounts, to post underuse, community service and non-matching waiver notices, and to closeout awards. The system is also used for payment of teacher cancellations to schools, operation of the default reduction assistance program, and for deobligation of returned unused funds and redistribution of the returned funds as supplemental awards. eCBS contains FISAP data from 1999 to the present.

TEMPORARY

Cut off annually upon end of application cycle year. Destroy/delete 15 years after final repayment or audit of student financial obligation, or after student record information is transferred to alternate recordkeeping system (i.e., loan servicing system), whichever is sooner.

b. Loan Origination and Disbursement Records

Master promissory notes (MPNs), including Electronic Master Promissory Notes (eMPN) master data files

An MPN is a promissory note that can be used to make one or more loans for one or more academic years (up to 10 years). The electronic MPN site allows borrowers to complete and sign an MPN over the web as an alternative to a hardcopy MPN with a wet signature. A Department-issued PIN is required in order for borrowers to complete and submit the eMPN.

TEMPORARY

Destroy/delete 75 years after loan repayment.

2. Common Origination and Disbursement (COD) System master data files

COD is a financial transaction system that provides a common platform for schools to originate and disburse Title IV funds. COD is used to book loans, account for awarded grants and to enable the Department to reconcile school cash drawdowns from the Treasury Department to individual student disbursements. This information also is used to ensure the respective schools receive the appropriate amount of dollars during the respective time periods. The information is collected from student applicants and schools participating in the Title IV Higher Education Student Financial Aid Programs to enable the administration of the Federal Title IV grants and loans by the Department. The Title IV loans and grants are used by eligible students to attend those schools.

3. Common Origination and Disbursement Data Archive (CODDA) master data files

CODDA is an archive system that stores data processed by COD from 1973-2001. CODDA does not log new data that is incorporated into the COD system and only serves as an archive system. (Refer to Item b.2 of this schedule for information about COD.)

4. Direct Loan Origination/Consolidation System (DLOS) master data files

DLOCS supports the delivery of the Direct Loan Program by providing the front end processing of direct student loans with participating institutions of higher education. The system enables the making of direct student loans to eligible borrowers and then transmits the appropriate booked loan data to the Central Database and Loan Servicing systems. DLOCS receives and processes all loan applications and disbursements and records the receipt of the completed promissory note. This system also provides for the consolidation of multiple student loans into a single direct consolidation loan.

5. Agreement to Serve (ATS) master data files

This system contains Teacher Education Assistance for College and Higher Education (TEACH) Grant Program Agreements to Serve (ATS). TEACH Grants were established by the College Cost Reduction and Access Act of 2007 and are for students who intend to teach in a public or private elementary or secondary school that serves students from low-income families. An ATS is a legally binding document that explains an applicant's TEACH Grant service obligation, the conditions under which a TEACH Grant may be converted to a Direct Unsubsidized Loan, and describes the repayment terms and conditions that apply if a TEACH Grant is converted to a loan.

TEMPORARY

For Items a.2-a.5, cut off annually upon reconciliation of accounts. Destroy/delete 15 years after final repayment or audit, or after relevant data is transferred to an alternate recordkeeping system (i.e., loan servicing system), whichever is sooner.

c. Duplicate Copies Regardless of Medium Maintained for Reference Purposes and That Do Not Serve as the Record Copy

non-record materials

TEMPORARY

Destroy/delete when no longer needed for reference.
