Trust Beneficiary Service Center

System Description: The Trust Beneficiary Service Center system was created to track and document all beneficiary contacts whether they are inquiries about trust assets or requests for general information. The shared beneficiary contact database allows Trust Beneficiary Call Center staff (TBCC), Whereabouts Unknown (WAU) Project staff and Field Operations staff to: make more informed responses; provide consistent responses and eliminate duplicate transactions. The TBCC system allows for documentation of beneficiary's name and contact information. Updates and resolution to inquiries received by the Call Center are documented within the system. Implementation of the tracking system has allowed OST to provide better accountability to Indian beneficiaries by ensuring that all documented inquiries are resolved on a timely basis and with accurate information.

a. Inputs:

Beneficiary name, address, IIM account number, and other personal identifiers are imported and manually input from ODR on a nightly basis. The inquiry category, description, updates and resolution and other ticket information and supporting documents must be keyed into ServiceCenter by the user. Scanned letters sent to the beneficiary may also be attached to a beneficiary contact record in ServiceCenter.

Disposition: Apply disposition instructions approved for paper and microfilm records.

b. Data Files:

The master data files contain beneficiary's name and contact information, personal information (i.e., SSN, Tribal Affiliation), and inquiry and resolution of inquiry. Each inquiry is assigned a unique call number or incident number that be queried, as well as queried by any field (i.e., account number, status, contact name, etc.).

Disposition: PERMANENT. Create duplicate copy of records off-line and physically transfer to the National Archives upon approval of this schedule in accordance with NARA instructions and guidance. Subsequent legal transfer of the records will be as jointly agreed to between DOI and NARA, in accordance with regulations currently cited in 36 CFR 1228.270.

Data restricted in accordance with Privacy Act Notice.

c. Outputs:

ELECTRONIC RECORDS SCHEDULE

Service Center maintains beneficiary contact data that is used to generate required quarterly, weekly, monthly calls reports, incident reports, WAU reports usage and variance reports. Work -tickets, print screens, images and all data outputs from the ServiceCenter system.

Disposition: Apply disposition instructions approved for paper and microfilm program records.

d. Documentation

System Data specifications, data dictionary, file specifications, code books, record layouts, Trust Beneficiary ServiceCenter System Design and analysis documents, Trust Beneficiary ServiceCenter User Guide, output specifications, testing scenarios, final reports, regardless of medium, relating to the relational files or database.

Disposition: PERMANENT. Transfer to the National Archives with Relational Data Files identified in item b above.
