	<p><b>Disbursements</b></p> <p><b>Background:</b>            The Community Development Financial Institutions (CDFI) Program was established by the Reigle Community Development and Regulatory Improvement Act of 1994 to use federal resources to invest in and build the capacity of CDFIs to serve low-income people and communities lacking adequate access to affordable financial products and services. Since its inception, the Fund has made more than \$500 million in awards to loan funds, banks, credit unions, and community development venture capital funds.</p> <p>Following the award closings for the CDFI Assistance and Native Initiatives programs, the CDFI Fund is responsible for disbursing funds for the awards, tracking outstanding obligation amounts, and ensuring that all amounts obligated are properly disbursed or de-obligated within the regulated period. The Fund must ensure that disbursements are made only to awardees that are compliant with all assistance agreements and eligible for each payment, and that the amounts disbursed are consistent with the award.</p> <p><b>Description:</b>            The purpose of this system is to create a functioning online system that will allow CDFI business entities to make appropriate disbursements, communicate more effectively and track data associated with award disbursements.</p>
