REQUEST FOR RECORDS DISPOSITION AUTHORITY

(See Instructions on reverse)

LEAVE BLANK (NARA use only)

JOB NUMBER

N1-58-12-

Background:

The Electronic Disclosure Information Management System (E-DIMS) is an inventory control system that used to maintain the inventory of all casework within Disclosure (including management information reports), Governmental Liaison (GL) and Safeguards The Disclosure case processing work of E-DIMS transitioned to the new Automated Freedom of Information Act (AFOIA) application in July 2011 (IRM 1 15 8, Item 53 will be updated for AFOIA) The GL and Safeguards portions of E-DIMS have not yet transitioned to AFOIA and as a result, E-DIMS remains operational Some open Disclosure inventory also remains on the system

The management information reports enable Disclosure to track case inventories in real time by group, area and employee. We were able to track requests by aging within the area/group as well as cycle time and actions taken. In addition, managers and employees were able to monitor case actions on each case to determine the timeliness of actions. E-DIMS still enables Disclosure to generate reports (of case listings by employee as well as case type), but in a more limited scope/scale. GLs still use the system to record actions with state agencies, and Safeguards tracks compliance with safeguards guidance on E-DIMS.

User access for E-DIMS depends upon permissions and roles as approved by the user's manager Depending on the user and the role(s) assigned to the user, the system menus provide different system capabilities

Item 42. Electronic Disclosure Information Management System (E-DIMS). (supersedes Job No N1-58-05-2, Item 42)

Description:

The Office of Government Liaison and Disclosure (GLD) maintains electronic records in a relational database called E-DIMS, used to maintain, control, and track disclosure inventory and related information of Disclosure case workers nationwide. AFOIA has replaced the Disclosure case processing work of E-DIMS However, Safeguards continues to use E-DIMS for inventory control of ongoing and scheduled Safeguard reviews and reports
