ITEM NO.

8. DESCRIPTION OF ITEM

(With Inclusive Dates or Retention Periods)

9. GRS OR SUPERSEDED JOB CITATION

10. ACTION TAKEN (NARS USE ONLY)

1. Construction and Property Records, ca. 1966-72, 4 cu.ft.

Records relating to the construction of a federal complex in Cambridge, MA, originally for use as an Electronics Research Center for the National Aeronautics and Space Administration (NASA), but later acquired by the Department of Transportation (DOT), and still in use as a regional systems center. The records were created by both NASA and DOT but were retired to this Center by DOT.

Records on the construction of the complex (1 cu.ft.) consist of correspondence with the architect of the complex, Edward Durrell Stone; with the Cambridge Redevelopment Authority (CRA); with MIT, which is adjacent to the complex; and with various contractors and city and state officials. (The complex was a Massachusetts Urban Renewal Plan Project.) Also included are budget information, maps, design plans, files of public hearings, and data on urban renewal and the need of the CRA to find housing for people displaced by the project.

The remaining records (3 cu.ft.) consist of contracts, leases, agreements, and related material that are routine legal, financial, and administrative files pertaining to NASA occupied space in other buildings, and to DOT offices in the complex.

a. Records relating to the construction of this federal complex (box 1 of the original accession) ~~because of the fame of the architect, and because the records~~

warrant archival retention
