Background Information NHTSA 's CAFE Management Suite System under 49 CFR parts 531, 533, 535, 536, & 537, provides rulemaking and enforcement program offices with an automated information management system to support enforcement activities and regulatory reporting requirements for the Federal Corporate Average Fuel Economy (CAFE) Program.

Data is received from Automobile manufacturers, through the Environmental Protection Agency (EPA) Central Data Exchange (CDX). The data exchange includes Environmental Protection Agency (EPA) final automobile model year reports, fuel economy data, and automobile manufacturers footprint and production data.

The system houses fuel economy data, and automobile manufacturer footprint and production data.

The system will generate CAFE reports that will be available to Enforcement and Rulemaking personnel as well as the general public. Data will be made available for the VOLPE model for future development of fuel economy standards. Communications for Enforcement activities will also be produced by the system.
