1. OREGON STATE ACCIDENT DATA. One of a collection of 27 states police reported accident data. Each state provides a census of all police accident reports, annually. The State Data is used to support National Highway Traffic Safety Administration's (NHTSA) identification of traffic safety problems, development and implementation of vehicle and driver countermeasures, and evaluation of motor vehicle safety standards.

State police, local police, sheriffs and other enforcement officers in Oregon fill out a Police Accident Report (PAR) for each motor vehicle accident resulting in \$600.00 worth of property damage, a personal injury, or a fatality. They record environmental and road conditions and accident, vehicle, and occupant characteristics. NHTSA obtained the data from the Oregon Department of Transportation. Presently, NHTSA no longer obtains the state of Oregon's data.
