	<p>treated at VA health care facilities. The primary medical record, Medical Records Folder File, consists of two segments, medical or clinical records, and administrative or correspondence records, which document episodes of medical care and benefits provided to patients by the VA. The file is considered inactive 3 years after the last episode of care, at which time it is converted to a Perpetual Medical Record and an Inactive Medical Record for long-term retention. Other records series evaluated as part of the VA Medical Records of Patients are not affected by this appraisal. Their respective retention standards remain in effect.</p>		
1	<p>The Medical Records Folder File (or Consolidated Health Record) contains all professional and administrative material necessary to document the episodes of medical care and benefits provided to individuals by the VA health care system.</p>		
1a	<p>The Medical Records Folder documents diagnostic examinations and definitive medical, surgical, psychiatric, and dental care or treatment rendered a patient (veteran, non-veteran, beneficiary non-beneficiary) at a VA health care facility. It contains in written and graphic form the diagnostic, treatment and sociological information compiled by various members of the medical care team who participated in the care of a patient during the course of treatment. It is intended to meet the legal, administrative, teaching and research needs of the VA medical staff, and provide a means of studying and evaluating the type of care rendered. VA and other monetary benefits are sometimes decided by use of information from the Medical Records Folder.</p> <p>Disposition: Retain in VA health care facility until 3 years after last episode of care, then convert to an Inactive Medical Record.</p>		
1b	<p>Administrative Records Folder (Correspondence Folder) constitutes the active administrative records segment of the Medical Records Folder File. It contains documentation of the patient's legal eligibility for VA medical benefits and other administrative documents relating to various episodes of hospital, nursing home, domiciliary, or outpatient care furnished at VA health care facilities.</p>

1c	<p>Disposition: Retain in VA health care facility along with the Medical Records Folder until 3 years after the last episode, then convert to an Inactive Medical Record.</p> <p>The Perpetual Medical Records record is created by extracting certain documents from the Medical Record Folder File (or Consolidated Health Records), clinical and administrative segments, after a three year period of inactivity from the date of discharge or release of a patient from the last episode of care. It contains the following basic medical and administrative records for each episode of care:</p> <p>Application for medical benefits.</p> <p>Narrative treatment Summary, or equivalent.</p> <p>Record of hospitalization, or equivalent.</p> <p>Autopsy report for death case, if applicable.</p> <p>Records relating to release of information, requests to amend, records of denial access or disputes as required under the Privacy Act of 1974.</p> <p>In addition to the aforementioned medical documents, Perpetual Medical Records for Ionizing Radiation and Agent Orange claimants consist of VA Form 10-0020a, Ionizing Radiation Registry Code Sheet, VA Form 10-9009, Agent Orange Registry Code Sheet, progress notes, laboratory reports, followup letters, and other Ionizing Radiation and Agent Orange related records.</p> <p>This record is to be phased out as a separate record series, and new Perpetual Medical Records are not to be established after approval of this request.</p>		
1d	<p>The new Inactive Medical Record consists of documents relating to various episodes of hospital, nursing home, domiciliary, or outpatient care provided by VA health care facilities. It also consists of documents pertaining to a patient's legal eligibility for VA medical benefits. This records series consists of Application for Medical Benefits, Narrative Treatment Summary (or equivalent), Records of Hospitalization (or</p>
