

INACTIVE - ALL ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: N1-GRS-95-002

All items in this schedule are inactive. Items are either obsolete or have been superseded by newer NARA approved records schedules.

Description:

In Fiscal Year 2013, the GRS Team began a five year project to update and revise the General Records Schedules (GRS) under OMB/NARA M-12-18, Managing Government Records Directive. The old GRS was completely superseded.

See <https://www.archives.gov/records-mgmt/grs> for the revised GRS, crosswalks, faqs, tools, and other resources.

General Records Schedule 20

Electronic Records

This schedule provides disposal authorization for certain electronic records and specified hard-copy (paper) or microform records that are integrally related to the electronic records.

This schedule applies to disposable electronic records created or received by Federal agencies including those managed for agencies by contractors. It covers records created by computer operators, programmers, analysts, systems administrators, and all personnel with access to a computer. Disposition authority is provided for certain master files, including some tables that are components of data base management systems, and certain files created from master files for specific purposes. In addition, this schedule covers certain disposable electronic records produced by end users in office automation applications. These disposition authorities apply to the categories of electronic records described in GRS 20, regardless of the type of computer used to create or store these records.

GRS 20 does not cover all electronic records. Electronic records not covered by GRS 20 may not be destroyed unless authorized by a Standard Form 115 that has been approved by the National Archives and Records Administration (NARA).

The records covered by several items in this schedule are authorized for erasure or deletion when the agency determines that they are no longer needed for administrative, legal, audit, or other operational purposes. NARA cannot establish a more specific retention that would be appropriate in all applications. Each agency should, when appropriate, determine a more specific disposition instruction, such as "Delete after X update cycles" or "Delete when X years old," for inclusion in its records disposition directives or manual. NARA approval is not needed to set retention periods for records in the GRS that are authorized for destruction when no longer needed.

Items 2a and 1a (in part) of this schedule apply to hard-copy or microform records used in conjunction with electronic files. Item 1 also covers printouts produced to test, use, and maintain master files. Items 10 and 11 of this schedule should be applied to special purpose programs and documentation for disposable electronic records whatever the medium in which such documentation and programs exist.

This schedule has been revised to include electronically-generated records previously covered in General Records Schedule 23, Records Common to Most Offices. The original numbering of the items in GRS 20 has been preserved. The items moved from GRS 23 have been added at the end, except the item covering administrative data bases that has been incorporated into item 3.

Electronic versions of records authorized for disposal elsewhere in the GRS may be deleted under the provisions of item 3 of GRS 20.

See also 36 CFR Part 1234 for NARA regulations on electronic records management.

1. Files/Records Relating to the Creation, Use, and Maintenance of Computer Systems, Applications, or Electronic Records.

- a. Electronic files or records created solely to test system performance, as well as hard-copy printouts and related documentation for the electronic files/records.

Delete/destroy when the agency determines that they are no longer needed for administrative, legal, audit, or other operational purposes.

- b. [Unchanged]

- c. Electronic files and hard-copy printouts created to monitor system usage, including, but not limited to, log-in files, password files, audit trail files, system usage files, and cost-back files used to assess charges for system use.

Delete/destroy when the agency determines they are no longer needed for administrative, legal, audit, or other operational purposes.

2. [Unchanged]

3. Electronic Versions of Records Scheduled for Disposal.

- a. Electronic versions of records that are scheduled for disposal under one or more items in GRS 1-16, 18, 22, or 23; EXCLUDING those that replace or duplicate the following GRS items: GRS 1, items 21, 22, 25f; GRS 12, item 3; and GRS 18, item 5.

Delete after the expiration of the retention period authorized by the GRS or when no longer needed, whichever is later.

- b. Electronic records that support administrative housekeeping functions when the records are derived from or replace hard copy records authorized by NARA for destruction in an agency-specific records schedule.

- (1) When hard copy records are retained to meet recordkeeping requirements.

Delete electronic version when the agency determines that it is no longer needed for administrative, legal, audit, or other operational purposes.

- (2) When the electronic record replaces hard copy records that support administrative housekeeping functions.

Delete after the expiration of the retention period authorized for the hard copy file, or when no longer needed, whichever is later.

(3) **Hard copy printouts created for short-term administrative purposes.**

Destroy when the agency determines that they are no longer needed for administrative, legal, audit, or other operational purposes.

4. **Data Files Consisting of Summarized Information.**

Records that contain summarized or aggregated information created by combining data elements or individual observations from a single master file or data base that is disposable under a GRS item or is authorized for deletion by a disposition job approved by NARA after January 1, 1988, EXCLUDING data files that are created as disclosure-free files to allow public access to the data which may not be destroyed before securing NARA approval.

Delete when the agency determines that they are no longer needed for administrative, legal, audit, or other operational purposes.

[NOTE: Data files consisting of summarized information which were created from a master file or data base that is unclassified, or that was scheduled as permanent but no longer exists or can no longer be accessed, may not be destroyed before securing NARA approval.]

5. **Records Consisting of Extracted Information.**

Electronic files consisting solely of records extracted from a single master file or data base that is disposable under GRS 20 or approved for deletion by a NARA-approved disposition schedule, EXCLUDING extracts that are:

- a) **produced as disclosure-free files to allow public access to the data; or**
- b) **produced by an extraction process which changes the informational content of the source master file or data base;**

which may not be destroyed before securing NARA approval. For print and technical reformat files see items 6 and 7 of this schedule respectively.

Delete when the agency determines that they are no longer needed for administrative, legal, audit, or other operational purposes.

[NOTES: (1) Records consisting of extracted information that were created from a master file or data base that is unclassified, or that was scheduled as permanent but no longer exists or can no longer be accessed may not be destroyed before securing NARA approval. (2) See item 12 of this schedule for other extracted data.]

6. Print File.

Electronic file extracted from a master file or data base without changing it and used solely to produce hard-copy publications and/or printouts of tabulations, ledgers, registers, and statistical reports.

Delete when the agency determines that they are no longer needed for administrative, legal, audit, or other operational purposes.

7. Technical Reformat File.

Electronic file consisting of data copied from a complete or partial master file or data base made for the specific purpose of information interchange and written with varying technical specifications, EXCLUDING files created for transfer to the National Archives.

Delete when the agency determines that they are no longer needed for administrative, legal, audit, or other operational purposes.

8. Backups of Files.

Electronic copy, considered by the agency to be a Federal record, of the master copy of an electronic record or file and retained in case the master file or database is damaged or inadvertently erased.

- a. File identical to records scheduled for transfer to the National Archives.

Delete when the identical records have been captured in a subsequent backup file or when the identical records have been transferred to the National Archives and successfully copied.

- b. File identical to records authorized for disposal in a NARA-approved records schedule.

Delete when the identical records have been deleted, or when replaced by a subsequent backup file.

9. Finding Aids (or Indexes).

Electronic indexes, lists, registers, and other finding aids used only to provide access to records authorized for destruction by the GRS or a NARA-approved SF 115, EXCLUDING records containing abstracts or other information that can be used as an information source apart from the related records.

Delete with related records or when the agency determines that they are no longer needed for administrative, legal, audit, or other operational purposes, whichever is later.

10. [Unchanged]

11. Documentation.

- a. Data systems specifications, file specifications, codebooks, record layouts, user guides, output specifications, and final reports (regardless of medium) relating to a master file or data base that has been authorized for destruction by the GRS or a NARA-approved disposition schedule.

Destroy or delete when superseded or obsolete, or upon authorized deletion of the related master file or data base, or upon the destruction of the output of the system if the output is needed to protect legal rights, whichever is latest.

- b. Copies of records relating to system security, including records documenting periodic audits or review and recertification of sensitive applications, disaster and continuity plans, and risk analysis, as described in OMB Circular No. A-130.

Destroy or delete when superseded or obsolete.

[NOTES: (1) Documentation that relates to permanent or unscheduled master files and data bases is not authorized for destruction by the GRS. (2) See item 1a of this schedule for documentation relating to system testing.]

12. Downloaded and Copied Data.

Derived data and data files that are copied, extracted, merged, and/or calculated from other data generated within the agency, when the original data is retained.

- a. Derived data used for ad hoc or one-time inspection, analysis or review, if the derived data is not needed to support the results of the inspection, analysis or review.

Delete when the agency determines that they are no longer needed for administrative, legal, audit, or other operational purposes.

- b. Derived data that provide user access in lieu of hard copy reports that are authorized for disposal.

Delete when the agency determines that they are no longer needed for

administrative, legal, audit, or other operational purposes.

- c. Metadata or reference data, such as format, range, or domain specifications, which is transferred from a host computer or server to another computer for input, updating, or transaction processing operations. Delete from the receiving system or device when no longer needed for processing.

[NOTE: See item 5 of this schedule for other extracted data.]

13. Word Processing Files.

Documents such as letters, memoranda, reports, handbooks, directives, and manuals recorded on electronic media such as hard disks or floppy diskettes after they have been copied to an electronic recordkeeping system, paper, or microform for recordkeeping purposes.

Delete from the word processing system when no longer needed for updating or revision.

14. Electronic Mail Records.

Senders' and recipients' versions of electronic mail messages that meet the definition of Federal records, and any attachments to the record messages after they have been copied to an electronic recordkeeping system, paper or microform for recordkeeping purposes.

Delete from the e-mail system after copying to a recordkeeping system.

[NOTE: Along with the message text, the recordkeeping system must capture the names of sender and recipients and date (transmission data for recordkeeping purposes) and any receipt data when required.]

15. Electronic Spreadsheets.

Electronic spreadsheets generated to support administrative functions or generated by an individual as background materials or feeder reports.

- a. When used to produce hard copy that is maintained in organized files.

Delete when no longer needed to update or produce hard copy.

- b. When maintained only in electronic form.

Delete after the expiration of the retention period authorized for the hard copy by the GRS or a NARA-approved SF 115. If the electronic version replaces hard copy records with differing retention periods and agency software does not readily permit selective deletion, delete after the longest retention period has expired.
