

# INACTIVE - ALL ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: N9-025-01-001

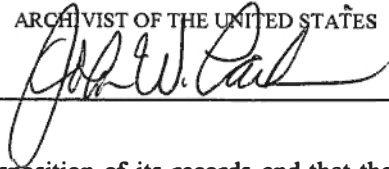

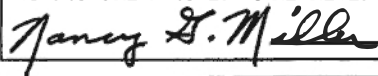

All items in this schedule are inactive. Items are either obsolete or have been superseded by newer NARA approved records schedules.

## Description:

Records schedules starting with the number N9 were created in response to NARA Bulletins 99-04 and 2000-02. The N9 records schedules created from 1999-2002 allowed agencies to create bulk updates to previously approved schedules to cover copies of records in word processing and email formats. Word processing and email formats are now scheduled in the General Record Schedules, superseding all N9 records schedules approved by NARA. See GRS 5.1 Item 020 Non-record keeping copies of electronic records (DAA-GRS-2016-0016-0002).

Date Reported: 09/16/2014

Chapter 1, Records Common to Most Offices

Electronic copies of records that are created on electronic mail and word processing systems and used solely to generate a recordkeeping copy of the records covered by other items in this schedule. Also includes electronic copies of records created on electronic mail and word processing systems that are maintained for updating, revision, or dissemination. In addition, this disposition does not cover any item already covered by the General Records Schedules or ~~NARA~~ schedule NC1-25-81-1.

*NLRB*

- a. Copies that have no further administrative value after the recordkeeping copy is made. Includes copies maintained by individuals in personal files, personal electronic mail directories, or other personal directories on hard disk or network drives, and copies on shared network drives that are used only to produce the recordkeeping copy.

Destroy/delete within 180 days after the recordkeeping copy has been produced.

- b. Copies used for dissemination, revision, or updating that are maintained in addition to the recordkeeping copy.

Destroy/delete when dissemination, revision, or updating is completed.

- c. Back-up tapes: Consists of electronic backup copies of email and word processing records used to recreate a system or its data in case of unintentional loss from online storage.

Retain for a minimum of 90 days and destroy/delete according to standard backup procedures as instituted by ITB.
