Rail abandonment cases were included with Finance Dockets until 1972 when an ICC ruling separated the rail abandonment cases and resulted in the filing of these formal proceedings under the AB prefix. These case files include significant documents such as applications, petitions or notices of the railroad company for abandonment, the protests against abandonment, briefs, the notice and order of the Commission/STB, testimony, and exhibits which may include maps, charts, and photographs. The Abandonment Dockets are not only an important source of information concerning the financial history of the railroad, but also serve to illustrate the social and economic history of the local area affected by the proposed abandonment. The decline in railroad track mileage since 1920 has been an important facet of U.S. transportation history and has been the subject of research interest among historians interested in transportation and railroad history. Interstate Commerce Commission Records that are located at the Surface Transportation Board and stored at the WNRC were transferred to NARA immediately after acceptance of schedule 134-99-2. </p> <p data-bbox="349 1240 909 1272">Final Disposition Permanent</p> <p data-bbox="349 1293 841 1325">Item Status Active</p> <p data-bbox="349 1347 795 1378">Is this item media neutral?
