STANDARD FORM 115 (REV. 8-83) Prescribed by GSA FPMR (41 CFR) 101-11.4

I. CORRESPONDENCE FILE FOR THE OFFICE OF NATURAL RESOURCES MANAGER'S OFFICE

This record series consists of correspondence which accumulated from February 1979 through June 1982 relating to the responsibilities and activities of the Office of Natural Resources (ONR) manager's office. On July 18, 1983, ONR merged with the Office of Economic and Community Development to form the Office of Natural Resources and Economic Development. The volume is approximately 20 cubic feet.

ONR was organized in 1979. Its responsibilities were to plan and manage programs to protect, conserve, and provide for the unified development of the natural resources of the Tennessee Valley region for sustained optimum contribution to the regional economy and environment. Programs were aimed at providing the people of the region with high-quality multiple benefits from land, water, and air resources. Through timber, wildlife, fish, and associated recreation and environmental programs, multiple public amenities were produced. The office planned and implemented programs for water resources conservation, development, and management; waste treatment and disposal; and biological vector and aquatic plant control. The office developed and promoted implementation of comprehensive land use planning and managed TVA reservoir lands and water. It coordinated and conducted environmental research and demonstration projects carried out by TVA alone and in cooperation with other agencies and organizations. It provided environmental technical services to ensure that TVA activities complied with Federal requirements. It planned and administered the work of Land Between the Lakes.

The manager's office was responsible for planning, coordinating, and directing the activities of ONR and delegated the responsibility to directors of the Division of Land and Forest Resources, Natural Resource Operations, and Air and Water Resources; the Director of Environmental Quality, Land Between the Lakes; and other staff as needed.

The ONR manager's file was consolidated with ONR's Environmental Quality Staff (EQS) file from June 1982 to July 17, 1983. This segment of records was interfiled with the EQS records during this 13-month period and it would be difficult to separate the records; therefore, this segment will be scheduled at a later date with the EQS files.

DISPOSITION

Permanent. Transfer to the National Archives in June 1997. (Two-year temporary and housekeeping records will be purged from this file before it is transferred to the TVA Knoxville Records Center immediately upon approval of this schedule.)
