I.1 VICE PRESIDENT OF COMMUNICATIONS' CORRESPONDENCE FILE (January 1989 to July 1991)

The Vice President of Communications, a newly created position was established in 1989. The responsibilities of this position comprise of managing the following groups: Corporate Communications; Creative Services and Advertising; Media Relations; Plant Community Relations; Regional Communications; and the Washington Office. The activities of these groups include meeting communications needs of TVA employees, key external audiences, and TVA's principal business partners; setting standards of excellence for TVA's communications, and building support for its operations through opinion research, advertising, special events, teleproductions and graphic design; and enhancing understanding and acceptance of TVA's business goals. These are accomplished by being visible, accessible, and credible in disseminating information to Valley, national, and trade media, and by building customer confidence in TVA's ability to manage nuclear, hydro, fossil and hydro plants in a safe manner. Other activities include promoting understanding and support for TVA's business operations by strengthening its relations with top state government officials and with major industry groups and engendering support among the Valley delegation, and the Congress. The correspondence file reflects the activities associated with these responsibilities.

This correspondence is filed chronologically and separated by month, and has never been coded into an official file. Since this segment was never integrated into an official file, it is necessary to schedule it separately.
