 (Date) (Signature of Agency Representative) (Title)

7. ITEM NO.	8. DESCRIPTION OF ITEM (With Inclusive Dates or Retention Periods)	9. SAMPLE OR JOB NO.	10. ACTION TAKEN
1.	<u>Division of Chemical Operations</u> Ammonia Plant Operating Records TVA's first ammonia producing plant was placed in operation in 1942 to produce ammonia for WWII and was used in post war years to further TVA's fertilizer research and development program. This plant became obsolete and replaced by a new one in 1971. Most of the operating records used to run the plant were scheduled for disposal and have been destroyed. The records on the attached list are the remaining unscheduled operating records and aren't of any further value to TVA. All pertinent information has been summarized and reported in various narrative, statistical and financial reports within TVA. We request approval to destroy these records. Total retention period--none, destroy all.		

Copy to Agency + East Point 3/11/75 JOC
