Board of Directors

The Tennessee Valley Authority is an independent corporate agency of the Federal Government created by Act of Congress on May 18, 1933. It is directed by a three-member, full-time Board. All Board members are appointed by the President, subject to Senate confirmation. Appointments run for nine years, except the original unequal periods set up to stagger the terms, or for the remainder of an unexpired nine-year term of a vacancy. If a term is vacated before it expires, a new appointee will serve the remainder of the term. The Chairman of the Board is designated by the President. Directors may be appointed to additional terms by the President. The Board is responsible to the President and to Congress.

Under the TVA Act, the Board of Directors is vested with all powers of the Corporation. The Board establishes general policies and programs; reviews and appraises progress and results; approves projects and specific items which are of major importance, involve important external relations, or otherwise require Board approval; approves the annual budget; and establishes the basic organization through which programs and policies are executed.

General Manager

The General Manager is the principal TVA administrative officer. The General Manager serves as liaison between the Board and the offices and divisions in handling of matters of Board concern, and is responsible for coordinating the execution of programs, policies, and decisions which the Board of Directors approves or adopts. The General Manager brings before the Board matters which require its consideration or approval; assists the Board in presenting the TVA budget to the Office of Management and Budget and to Congress; affirms to the Board the adequacy of staff coordination and contribution in matters presented for its consideration, including judgments relating to broad public consequences, social and economic effects, and planning and program direction; interprets the Board's instructions to the offices and divisions; originates or approves administrative controls to ensure integrated execution of the total TVA program; and reports to the Board on overall efficiency, effectiveness, and economy of TVA operations.

The General Manager assigns duties and makes delegations to the TVA offices, divisions, and staffs in their execution of programs and policies which the Board of Directors adopts, subject to such controls as it may establish. The General Manager reviews and approves major TVA management methods, major organization changes within offices and divisions, and major staff appointments, and recommends to the Board basic changes in the TVA organization. The General Manager is responsible for ensuring that appropriate matters are presented in coordinated form to the Board at the proper time and that the Board has pertinent related information; and provides for the formal definition and communication of TVA programs, policies, procedures, and continuing delegations of authority and responsibility.

Description of Records

A detailed listing of the types of information contained in the TVA Board of Directors and the General Manager files follows.

The records contain information on administrative and program concerns such as:

Federal laws and legislation; Legal Matters

Industries and industrial development including power program and policies of TVA, production of power, transmission and distribution of power, sale and consumption of power, power studies and surveys including water power, power costs and rates, and rural electrification

Production, sale and distribution of fertilizer

Correspondence with various Valley area cooperatives such as: Land O' the Sky Mutual Association, Inc., Southern Highlanders, Inc., etc.

The files include:

Letters from the Executive Branch, other Federal agencies, Congressmen, outside companies and organizations, Tennessee Valley residents, and the general public.

Memoranda created within the corporation documenting administrative recommendations and decisions and various program operations and functions conducted within the organization.

Periodic progress reports made to the Executive Branch and other Federal agencies concerning all components of the Corporation; reports of special studies and projects being undertaken within the Corporation; and various informational reports received from other Federal agencies and outside companies.

Informational publications received from other Federal agencies, outside organizations and companies and publications developed and printed within TVA documenting various program operations.

The Chairman's File was established in 1936 and includes records dating back to 1933.

Dr. Arthur E. Morgan was the first Chairman of the TVA Board of Directors. He was appointed as Chairman on May 26, 1933, and served in this position until removed by Presidential action on March 23, 1938. Dr. Morgan was relieved of his position by President Franklin D. Roosevelt.

At some point, Dr. A. E. Morgan removed a large volume of the records created during his Chairmanship and later offered them to Antioch College, Yellow Springs, Ohio.

Dr. Harcourt A. Morgan was appointed Chairman by President Roosevelt on March 23, 1938, and relinquished Chairmanship on September 15, 1941.

David E. Lilienthal was designated Chairman on September 15, 1941, and served until he resigned on October 28, 1946, to become Atomic Energy Commission Chairman.

Chairman Lilienthal's records collected during his term as Chairman were segregated from the Chairman's File for the microfilming project for Princeton University. In 1979, Chairman Lilienthal's records were microfilmed with a copy of microfilm for TVA and the paper records accessioned into the Archives Branch, National Archives and Records Administration, East Point, Georgia by SF 258 dated May 1, 1979, NARS Job Number NC3-142-79-8.

Other than these two segments, all of the Board files are currently located in either the Knoxville Records Center or the General Manager's Files in the TVA, Office of the General Manager, Records Management Unit.

Gordon R. Clapp was appointed Chairman on October 28, 1946. His term expired on May 18, 1954.

Herbert D. Vogel was appointed Chairman on August 2, 1954, and served until he resigned on June 30, 1962.

Aubrey J. Wagner was designated Chairman on June 23, 1962, and served until he resigned on May 18, 1978.

S. David Freeman was designated Chairman on May 18, 1978, and relinquished Chairmanship on June 22, 1981.

Charles H. Dean, Jr., was appointed Chairman by President Ronald Reagan on June 20, 1981, and was sworn in on June 22, 1981.

Beginning 1958 to June 22, 1981, the Chairman's records have been maintained as one file series--Chairman's File.

Effective June 22, 1981, there is a file break in the Chairman's File beginning with Chairman Charles H. Dean, Jr.'s, records.

The Dewey Decimal System (adapted from the old War Department system) was used as standard in TVA from 1933 to 1940. From 1940 to 1943 the Departmental System (later called Divisional System) was standard. In 1943 the TVA Standard Alpha-Numeric File Classification System was developed. The Chairman's File and Directors' Files were coded by the Dewey Decimal System until 1958. In January 1958 the files were set up by the Standard Alpha-Numeric System. In 1983 major revisions were made to the alpha-numeric system and is identified in the disposition as TVA Alpha-Numeric System Revised. Correspondence was classified by the revised system beginning January 1984 in the Chairman's, General Manager's and Director John B. Waters' files.

The Records of the Board of Directors are organized in three segments:

1. Alphabetic name file--In the Dewey Decimal System the alphabetic name file (proper name) was classified 095 and then by the first alphabetic letter of the proper name. In the TVA Alpha-Numeric System the classification was dropped and only the alphabetic letter used. The Alphabetic name file is filed in the beginning of the correspondence file and serves as a much-used finding aid.

2. General Correspondence File--The main segment of the file consists of correspondence and miscellaneous materials usually classified by subject according to the TVA Standard Information Retrieval System used.
3. Volume File (VF)--The Volume File consists of bound reports, publications, booklets, and books; these documents are usually not filed in the folder with the correspondence transmitting them. They are coded by the same classification code as the correspondence file. A notation is made on the transmittal correspondence or a cross reference index prepared indicating the volume's location.

These records represent the execution of TVA's programs and policies at its highest administrative level.

2 Records of the General Manager of TVA

The Coordination Division was established October 6, 1933. In June 1937, the Coordination Division was changed to General Manager.

In 1936, the TVA Central File was decentralized and the Administrative File was established on the Dewey Decimal System to serve the General Manager's Office. Prior to the Central File microfilm project, the records series in the Central File relating to the General Manager's responsibilities were transferred to the Administrative File.

In 1958, the file name was changed from Administrative File to General Manager's File. At that time the classification system was changed from the Dewey Decimal System to the TVA Standard Alpha-Numeric System. Beginning January 1982, there was a file break which was established on the TVA Standard Alpha-Numeric System. Beginning January 1984, a new file was established on the TVA Standard Alpha-Numeric System Revised.

The 1933-1957 records series was accessioned into Archives Branch, National Archives and Records Administration, East Point, Georgia, 10/12/84. The 1958 through present records series is presently stored in the TVA, Office of the General Manager, Records Management Unit.

A history of those who have served as General Manager of TVA is as follows:

Carl A. Bock served as Coordinator until January 1, 1934.

John B. Blandford was appointed Coordinator effective January 1, 1934. John B. Blandford was appointed Acting General Manager beginning May 1936. He was appointed General Manager on June 17, 1937, and served through September 29, 1939.

Gordon R. Clapp was appointed General Manager on October 1, 1939, and served through November 1, 1946.

George F. Gant was appointed General Manager on November 2, 1946, and served through March 30, 1951.

John Oliver was appointed General Manager on September 23, 1951, and served through September 15, 1954.

A. J. Wagner was appointed General Manager on September 16, 1954, and served through March 8, 1961.

L. J. Van Mol was appointed General Manager on March 9, 1961, and served through March 1, 1970.

Lynn Seeber was appointed General Manager on March 2, 1970, and served through May 17, 1978.

Leon Ring was appointed General Manager on November 29, 1978, and served through June 26, 1979.

William F. Willis was appointed General Manager on June 27, 1979, and is currently serving as General Manager.

Because these records series reflect the activities and responsibilities of the principal TVA administrative office, a permanent retention period has been approved.

DISPOSITION:

- 3 General file material coded for temporary retention (Excludes material in Chairman's File) (Does not include any policy or procedural material)

The file material described below represents material routed to the Board of Directors for informational purposes. The record copy of policy or procedural material is filed either in the Board Chairman's file or the General Manager's file for permanent retention. The remaining items cover nonrecord materials coded for temporary retention and are not required to complete other files.

This authorization does not include material in the files for Directors H. A. Morgan, D. E. Lilienthal, James P. Pope, H. A. Curtis, or Raymond R. Paty. These files were coded by the Dewey Decimal System during the years 1933-1957, and will remain intact.

This authorization does not include any policy or procedural material.

Disposal of this material after a retention period of two calendar years will conserve use of file equipment and floor space.

After termination of a Director(s) or expiration of a Director's term, the records that have been preclassified for temporary retention and are not eligible for destruction will be transferred to the Knoxville Records Center with the permanent material. Since the permanent material is to be offered to the Archives three years after the expiration of the Director's term, the temporary records will be destroyed prior to shipment of the permanent material to the Archives.
