**Title:** TRI Processing System (TRIPS)

**Program:** Environmental Information

**Applicability:** Agency-wide

**Function:** 108-025-06-02 - Manage Toxic Substances

- N1-412-04-11

## Description:

The TRI Processing System (TRIPS) was established under the Emergency Planning and Community Right-To-Know Act of 1986 (EPCRA) and expanded by the Pollution Prevention Act of 1990. The inventory contains information on toxic chemical releases and other waste management activities reported annually by certain covered industry groups as well as federal facilities. Data include chemical identity, amount of on-site users, releases and off-site transfers, including publicly-owned treatment works (POTWs), on-site treatment, and minimization/prevention actions. Also contains data collected via EPA Form 9350-1, Toxic Chemical Release Inventory Reporting Form, trade secret claims made by submitters, and submissions received in both paper and electronic format. Output and reports are used by citizens and community organizations, national organizations, businesses, and educational institutions, as well as EPA. EPA uses the data for a wide variety of activities, including targeting environmental problems, compliance and enforcement, and risk assessment.

This item is a major system supporting operations required by statute and regulations for compliance and enforcement. This item combines EPA series 272 (NC1-412-88-3/19) which was previously appraised as permanent, and the input records covered in EPA series 224, scheduled as N1-412-95-7/3. The TRI data is primarily received and captured in electronic format, including electronic signatures, however, some submissions are still received in paper. The program office recommends an 8-year retention for the paper submissions so that the signatures are available for administrative and legal purposes. The retention for the data in the TRI electronic system has not changed. Disposition instructions for the trade secret claims tracking system, which is used to track submissions of trade secret claims, has been added.

Item i for electronic copies created with word processing and electronic mail applications was deleted 08/16/2006 pursuant to NARA Bulletin 2006-04.
