U.S. EPA RECORDS CONTROL SCHEDULE

1) **SERIES TITLE:** Site Assessment

PROGRAM: Superfund

EPA SERIES NO: 010R

NARA SCHEDULE NO. N1-412-94-4/1
(Use this number to retire records to the FRC)

APPLICABILITY: Regions

IDENTIFYING INFORMATION:

DESCRIPTION: Includes site-specific records related to sites which were investigated for listing on the National Priorities List (NPL). Specific types of documents include Site Discovery, Preliminary Assessment (PA), Site Investigation (SI) and Hazard Ranking System (HRS) package (e.g., facility worksheet scored by the Region/State, site summary documents which describe the site conditions or problems), comments, supporting documentation deletion packages, and documentation which verifies that records supporting site scores exist in State or Regional files. Records consist of the following categories:

- a. No Further Remedial Action Planned Sites (NFRAPs),
- b. Sites placed on the NPL,
- c. Sites warranting a removal action, and
- d. Sites not yet assigned to the NPL or NFRAP.

ARRANGEMENT: Arrangement varies.

TYPE OF RECORDS:
Case files

SPECIFIC RESTRICTIONS:
Confidential Business Information
Enforcement Sensitive Information

MEDIUM:
Paper, video/film, photographs,
publications, maps, and
architectural materials, forms

VITAL RECORD:

FUNCTIONS SUPPORTED:
Program operations

SPECIFIC LEGAL REQUIREMENTS:
Comprehensive Environmental Response, Compensation, and Liability Act of 1980,
as amended, Section 105, 42 USCA 9605
40 CFR 300

EPA SERIES NO. 010R

DISPOSITION INFORMATION:

FINAL DISPOSITION:
~~Permanent~~ *Dispasable*

TRANSFER TO FRC PERMITTED:
Yes

FILE BREAK INSTRUCTIONS: Break file upon remediation determination.

DISPOSITION INSTRUCTIONS:

- a. Keep in office at least 1 year after file break, then retire to FRC.
~~Transfer to NARA 30 years after file break~~ *Destroy when 40 years old.*
- b. File becomes part of remedial site file. See EPA 014A.
- c. File becomes part of removal site file. See EPA 013A.
- d. File remains in site assessment series until remediation determination.

APPLICATION GUIDANCE:

REASONS FOR DISPOSITION: Records are important historical documentation of potential and actual Superfund sites. Although some of the sites are not selected for inclusion on the NPL at this time, the records in this series contain information on the nature of the site, the dangers it poses, and the status of the investigation. For this reason, they may be needed for remediation activities in the future. These records are also necessary to protect the rights of those involved in the transfer or sale of the land or property involved. Records for sites that are placed on the NPL become part of the remedial site file which is also a permanent record.

AGENCY-WIDE GUIDANCE: Site assessment records for sites placed on the NPL become part of the remedial site file and should be transferred to the office or unit responsible for that series - See EPA 014A. Records for removal actions should be transferred to the office or unit responsible for that series - See EPA 013A. Records not yet determined to be NPL or NFRAP should remain in the site assessment series. Reference copies of these files held by all other offices can be destroyed when no longer needed to support current activities.

Federal Facilities Hazardous Waste Sites are scheduled as EPA 012A. Other Superfund site specific items are: Sampling and Analytical Data Files - EPA 018A, Administrative Records - EPA 019R, Contract Management Records - EPA 020A, and Enforcement Records - EPA 025A. See EPA 024A for Cost Recovery Records.

As required by 36 CFR 1228.58, records with special restrictions such as confidential business information (CBI) or those exempted from disclosure by statute such as the Privacy Act must be shredded or otherwise definitively destroyed with witnessed disposal for records destroyed by contractors.

PROGRAM: Superfund

EPA SERIES NO: 019R

NARA SCHEDULE NO. N1-412-94-4/2
(Use this number to retire records to the FRC)

APPLICABILITY: Regions

IDENTIFYING INFORMATION:

DESCRIPTION: The Administrative Record (AR) is a subset of the remedial and removal site file compiled and made available to the public as the basis for selected Superfund response actions. Specific types of records include Action Memoranda, Administrative Orders, Consent Orders, Applicable or Relevant and Appropriate Requirements (ARARs), the Preliminary Assessment/Site Inspection, the Remedial Investigation/Feasibility Study, Community Relations Plans, correspondence, fact sheets, news clippings, work plans, Natural Resource Trustee information, site reports, the proposed and approved remedial action, POLREPs, Potentially Responsible Party (PRP) letters, the Record of Decision (ROD), technical assistance documentation, technical issue papers, public meeting transcripts, public comments on the development of the Administrative Record, and an index to the record.

ARRANGEMENT: Arranged by site.

No

FILE BREAK INSTRUCTIONS:

a. Remedial records: Break file upon issuance of Record of Decision (ROD) for the site or operable unit and appropriate milestones thereafter.

Removal records: Break file upon issuance of the Action Memo or appropriate decision document.

b. Break file upon completion of microfilming.

DISPOSITION INSTRUCTIONS:

a. Keep in office at least 1 year after file break, then retire to FRC.

~~Transfer to the National Archives 20 years after file break.~~
Destroy when 30 years old.

b. Destroy paper upon completion of quality assurance. Keep microform in office at least 1 year after issuance of ROD, then retire to FRC. Transfer to the National Archives 20 years after file break.

APPLICATION GUIDANCE:

REASONS FOR DISPOSITION: The Administrative Record, as required by CERCLA, serves two primary purposes. First, the record contains those documents which form the basis for selection of a response action and any judicial review of any issue concerning the adequacy of any response action is limited to the record. Second, the record acts as a vehicle for public participation in selecting a response action. This item was previously scheduled as part of NC1-41-85-18/23.

AGENCY-WIDE GUIDANCE: The designated Regional Superfund Administrative Record Coordinator is responsible for maintaining and implementing the disposition for the record copy of this item. Records may need to be kept longer if ongoing or possible litigation or public interest warrants, as determined by the AR Coordinator. Repository copies should be disposed of upon authority of the AR Coordinator. All other copies held in any other office are reference copies and may be destroyed when no longer needed.

Documents referenced in the AR but not physically located in it (e.g., guidance documents located in a guidance compendium) need to have the same retention as the AR. Otherwise, the document must be included in the AR. Guidance documents may already be scheduled as EPA 007A - Directives and Policy Guidance Documents Issued by Specific Programs and Regions, EPA 108A - EPA Agencywide Directives, EPA 149A - Regulations, Standards, and Guidelines, or EPA 150A - Rulemaking Dockets.

The AR is a subset of the removal or remedial site files, scheduled as EPA 013A and EPA 014A, respectively. Other related Superfund site records include the following:

- EPA 001A - Grants and Other Program Support Agreements - Superfund Site Specific
- EPA 009A - National Contingency Plan/National Priorities List Docket (Supporting Documentation Files)
- EPA 010A - Site Assessment
- EPA 012A - Federal Facilities Hazardous Waste Sites
- EPA 018A - Sampling and Analytical Data Files - Superfund Site Specific
- EPA 020A - Contract Management Records - Superfund Site Specific

EPA SERIES NO. 019R

EPA 024A - Cost Recovery Records
EPA 025A - Enforcement Actions - Superfund Site Specific

Additional guidance on the contents and procedures for the AR are found in OSWER Directive No. 9833.3A-1, Final Guidance on Administrative Records for Selecting CERCLA Response Actions.

Microfilm copies are to be produced in accordance with standards in 36 CFR 1230.10 and 1230.20. It is recommended that the unit retain a silver set as well as diazo sets which will simplify making copies. If records are not filmed, apply disposition a to the paper records.

As required by 36 CFR 1228.58, records with special restrictions, such as confidential business information (CBI) or those exempted from disclosure by statute such as the Privacy Act must be shredded or otherwise definitively destroyed with witnessed disposal for records destroyed by contractors.

PROGRAM: All Programs

EPA SERIES NO: 126R

NARA SCHEDULE NO. N1-412-94-4/3
(Use this number to retire records to the FRC)

APPLICABILITY: Regions

IDENTIFYING INFORMATION:

DESCRIPTION: Contains information related to the development of Regional environmental programs and policies. Records consist of reports on Regional environmental projects, surveys, briefing books, special studies, position papers, legislation, unpublished directives and policy guidance documents, enforcement actions, and other program documents related to water, air, pesticide, toxic, and hazardous materials, enforcement, and environmental services programs. Records are used by Regional Administrators, Division Directors, and Branch and Section Chiefs in policy evaluation and program planning.

TRANSFER TO FRC PERMITTED:
Yes

FILE BREAK INSTRUCTIONS: Break file annually; bring forward active materials.

DISPOSITION INSTRUCTIONS: Keep inactive files in office up to 3 years after file break, then retire to FRC. Transfer to National Archives when 15 years old.

APPLICATION GUIDANCE:

REASONS FOR DISPOSITION: This series is meant to capture many of the basic policy development records in the Region and constitutes the basic documentation of Regional office activities.

AGENCY-WIDE GUIDANCE: This item covers the program development subject files which are generally held by officials holding the following offices: Regional Administrators, Division Directors, Branch and Section Chiefs. These records may not be maintained as a discrete file in all Regions. If not, then records that fit the description and background and support materials held in offices other than those named above should be pulled together when they become inactive and retired as a unit.

See EPA 143H for Program Development Files with Headquarters applicability. Management Studies are scheduled as EPA 105A and Organization Plans as EPA 106H. Records that document the ongoing management of programs should be disposed of in accordance with EPA 006A. Routine administrative materials should be disposed of in accordance with the NARA General Records Schedule or EPA 110A. Directives and policy guidance directives are covered in EPA 007A. See EPA 099A for Pilot Projects.

PROGRAM: RCRA

EPA SERIES NO: 206R

NARA SCHEDULE NO. N1-412-94-4/4
(Use this number to retire records to the FRC)

APPLICABILITY: Regions

IDENTIFYING INFORMATION:

DESCRIPTION: Contains records documenting corrective action measures as imposed through a permit or enforcement order. Includes RCRA Facility Assessments (RFA), RCRA Facility Investigations (RFI), Corrective Measures Studies (CMS), Corrective Measures Implementation (CMI), and related documents.

ARRANGEMENT: Arranged by site or facility.

DISPOSITION INFORMATION:

FINAL DISPOSITION:

TRANSFER TO FRC PERMITTED:

- a. RCRA land disposal permits:
 - Permanent Yes
- b. All others: Disposable Yes

All others refers to generators, transporters, and TSD facilities (except land disposal) as well as facilities which comply with regulations without following the usual permitting process.

FILE BREAK INSTRUCTIONS: Break file at permit renewal or termination; bring forward active materials.

DISPOSITION INSTRUCTIONS:

- a. Keep inactive files in office up to 5 years after file break, then retire to FRC. Transfer to NARA 20 years after file break.
- b. Keep inactive files in office up to 5 years after file break, then retire to FRC. Destroy 10 years after file break.

APPLICATION GUIDANCE:

REASONS FOR DISPOSITION: Records previously included in NC1-412-85-21/7 or NC1-412-85-20/4. Disposition instructions changed to be consistent with related records series.

AGENCY-WIDE GUIDANCE: If authorized States maintain records as long or longer than EPA, the program office may decide to review the records, except for RCRA land disposal permits, in the State offices rather than maintain copies in Regional offices. If the Regional office chooses to review records in State offices, it may destroy these files when no longer needed. However, in that case, the Regional office may not retire the files to the FRC.

RCRA permit files are covered in EPA 478A - RCRA Generators, Transporters, and TSD Facilities Files.

The program office may retain files for facilities likely to become compliance or enforcement issues. Compliance Files are covered in EPA 211R. If case referred to Regional Counsel for enforcement action, files become part of Enforcement Action Files and are covered by EPA 207R. See EPA 210R for Administrative Records - Permits.

DISPOSITION INSTRUCTIONS:

a and b. RCRA land disposal - Keep inactive materials in office up to 5 years after file break, then retire to FRC. Transfer to NARA 20 years after file break.

c and d. Keep inactive materials in office up to 5 years after file break, then retire to FRC. Destroy 10 years after file break.

APPLICATION GUIDANCE:

REASONS FOR DISPOSITION:

a and b. Permanent retention provides basis for on-going monitoring of possible public health threats to ground water. These records supplement those scheduled as permanent under EPA 205A, item a and EPA 478R, item a.

c and d. A 10 year retention after the file break is sufficient to meet administrative needs of program offices.

AGENCY-WIDE GUIDANCE: See EPA 019R for Administrative Records - Superfund Site Specific. Administrative Records Pursuant to the Administrative Procedure Act are scheduled as EPA 294A.

Drafts and working papers may be destroyed after issuance of the final permit.

Compliance Files and Enforcement Files are scheduled as EPA 211 and EPA 207R, respectively. See EPA 206R for RCRA Corrective Actions.

FILE BREAK INSTRUCTIONS: Break file annually; bring forward active materials.

DISPOSITION INSTRUCTIONS: Retain inactive files in office at least 2 years after file break, then retire to FRC. Destroy when 10 years old.

APPLICATION GUIDANCE:

REASONS FOR DISPOSITION: Retention of 10 years allows adequate time for trend comparison and for expanded sample times of 2 to 3 cycles. States have primary responsibility (primacy) for the programs.

AGENCY-WIDE GUIDANCE: Also known as Public Water Supply records.

If State is authorized and maintains records for retention periods identified above, the program office may decide to review the records in the State offices rather than maintain copies in Regional offices, and destroy the copies it receives.

Records documenting the approval process for State programs (primacy) are covered in EPA 204A, State Program Authorization/Approval Files. Other oversight activities covered in EPA 203R, State Oversight files. Enforcement Action Files and Compliance Files are scheduled as EPA 207R and 211A, respectively.

FILE BREAK INSTRUCTIONS: Break file annually, bring forward active materials.

DISPOSITION INSTRUCTIONS: Retain inactive files in office up to 2 years after file break, then retire to FRC. Destroy when 10 years old.

APPLICATION GUIDANCE:

REASONS FOR DISPOSITION: This series constitutes essential documentation of EPA's responsibilities for ensuring underground storage tanks meet regulatory requirements. Retention meets Agency administrative needs.

AGENCY-WIDE GUIDANCE: If authorized States maintain records for retention periods identified above, the program office may decide to review the records in the State offices rather than maintain copies in Regional offices, and destroy the copies it receives.

Program office may retain files in the office if the site or facility is likely to become a compliance or enforcement issue. EPA Series 207R covers Enforcement Action Files and EPA Series 211R covers Compliance Files.

Program office may retain documents deemed to be important historical site information until no longer needed.

As required by 36 CFR 1228.58, records with special restrictions such as confidential business information (CBI) or those exempted from disclosure by statute such as the Privacy Act must be those shredded or otherwise definitively destroyed with witness disposal for records destroyed by contractors.

PROGRAM: RCRA

EPA SERIES NO: 478A

NARA SCHEDULE NO. N1-412-94-4/17
(Use this number to retire records to the FRC)

APPLICABILITY: Agency-wide

IDENTIFYING INFORMATION:

DESCRIPTION: Records relate to RCRA generators, transporters, and TSD (treatment, storage and disposal) facilities as required by Subtitle C of the Resource Conservation and Recovery Act. Includes notification forms, permit applications and modifications, background and supporting documentation, public notices, drafts and final permits, comments and records of public meetings, fact sheets, exception reports, appeals, import and export notifications, closure and post-closure documents, inspection reports, court orders, manifests, delistings, correspondence, financial assurance documents, records relating to interim status, and other related records.

EPA SERIES NO. 478A

DISPOSITION INFORMATION:

FINAL DISPOSITION:

a. RCRA land disposal permits:
Permanent

TRANSFER TO FRC PERMITTED:

Yes

b. All others: Disposable

Yes

All others refers to generators, transporters, and TSD facilities (except land disposal) as well as facilities which comply with regulations without following the usual permit process.

FILE BREAK INSTRUCTIONS: Break file at permit renewal or termination; bring forward active materials (e.g., current permit).

DISPOSITION INSTRUCTIONS:

a. Keep inactive materials in office up to 5 years after file break, then retire to FRC. Transfer to NARA 20 years after file break.

b. Keep inactive materials in office up to 5 years after file break, then retire to FRC. Destroy 10 years after file break.

With FRC approval, records may be retired to FRC prior to designated time if volume warrants.

APPLICATION GUIDANCE:

REASONS FOR DISPOSITION: This combines previously scheduled items 2 and 3 of NC1-412-85-20. Land disposal permits have been changed to permanent retention to provide a basis for on-going monitoring of possible public health threats to ground water. RCRA land disposal sites pose the same long term threats that Superfund sites do and merit the same retention. These files contain information that would prove invaluable for remedial action if it should be determined that such action is warranted. CBI documents are sent to Headquarters for review.

AGENCY-WIDE GUIDANCE: If authorized States maintain disposable records for retention periods identified above, the program office may decide to review the records in the State offices rather than maintain copies in Regional offices and destroy the copies it receives.

Draft permits may be destroyed after approval of the final permit.

Notification forms which have been withdrawn or cancelled prior to issuance of a permit are subject to the same retention as the permits.

If land disposal permits are included or combined with other permits, they may be separated if practical and volume warrants.

The program office may retain files in the office if they are likely to become a compliance or enforcement issue. See EPA 211A for Compliance Files and EPA 207R for Enforcement Action Files. EPA 210R covers Administrative Records. Corrective Actions are scheduled as EPA 206R; EPA 252A covers RCRIS; and State Program Authorizations/Approvals are EPA 204A. Permits for other programs are scheduled as EPA 205A.

As required by 36 CFR 1228.58, records with special restrictions such as confidential business information (CBI) or those exempted from disclosure by statute such as the Privacy Act must be shredded or otherwise definitively destroyed with witnessed disposal for records destroyed by contractors.

DISPOSITION INFORMATION:

FINAL DISPOSITION:

Record copy: Disposable, except landmark or precedent cases which are permanent as designated by the Regional Administrator or the Regional Administrator's designee Yes

TRANSFER TO FRC PERMITTED:

FILE BREAK INSTRUCTIONS: Break file when final decision on appeal is handed down.

DISPOSITION INSTRUCTIONS:

a. Routine action: Keep inactive materials in office up to 2 years after file break, then retire to FRC. Destroy when 10 years old.

b. Landmark action: Keep inactive materials in office up to 5 years after file break, then retire to FRC. Transfer to the National Archives in 5 year blocks when most recent record is 20 years old.

APPLICATION GUIDANCE:

REASONS FOR DISPOSITION: A 10 year retention for routine appeals ensures that at least one permit renewal cycle is completed prior to destruction of the records and allows review of any previous appeals. Permanent retention of landmark cases provides a history of Agency decisions.

AGENCY-WIDE GUIDANCE: This schedule covers records maintained in the Office of Regional Counsel who is responsible for maintaining the record copy and implementing the disposition, including selecting landmark cases for recommendation to the Regional Administrator or the Regional Administrator's designee. Examples of possible landmark status would be appeals which require a hearing. If records are maintained in other program offices, they are to be maintained for the same length of time as stated in the disposition instructions.

Copies of these records may be filed with other records series (for example, with permits) and destroyed with those files or when no longer needed. All other copies may be destroyed when no longer needed.

See EPA 205A for Permits for programs other than RCRA, and EPA 478R for RCRA.
