APPLICATION GUIDANCE:

REASONS FOR DISPOSITION: Records were originally scheduled as part of item a of N1-412-87-4/25. The disposition for these reports is being extended for two reasons. First, programs find the need to refer to previous justifications when preparing new ones. Program contacts indicate that they go back as many as two previous submissions to research current requests for information. Second, EPA has been challenged in court on their ability to collect the information. Frequently the litigation is joined years after the data collection effort. This revised disposition allows the Agency to respond for 7 years after the cessation of collection. This meets the statute of limitations and Agency legal needs.

AGENCY-WIDE GUIDANCE: Disposition is to be implemented by OP. Programs preparing the request should include their copies as part of their program management files, EPA 006, and apply the disposition appropriate to those files (generally 5 years).
