DESCRIPTION OF RECORDS

1. Experiment and Test Files

Experiment and test records that consist of various types of motion picture films, oscillograms, magnetic tapes, etc., on which are recorded raw or unevaluated data; and evaluation data resulting from study of above material, including memoranda, graphs, tabulations, reports, and related papers referred to collectively as "Reduced Data."

- a. Plans and procedures for conducting the experiment or test.
- Record print of edited still and motion picture film resulting from experiments and tests.
 - (1) Still Photography.
 - (a) Photographs corresponding to case files which have exceptional value because of the highly significant nature of the research involved, or the uniqueness of the case files and images.

- (b) Photographs corresponding to case files which lack permanent value.
- (2) Motion Picture and Videotape records.

AUTHORIZED DISPOSITION

Temporary. Destroy when 5 years old.

Present volume: 1 cubic foot. Annual accumulation: .1 cubic foot.

Permanent. Transfer to NARA when 20 years old. For black and white photography, transfer an original negative and captioned work print when feasible. For color photography, transfer whenever feasible any existing finding aids, the original color transparency or color negative, a captioned print and an internegative if one exists. Existing finding aids should be included in the transfer. (NOTE: During archival processing, the NARA Still Picture Branch [NNSP] may destroy without further agency concurrence any material found to be lacking in permanent value.)

Temporary. Destroy after 20 years.

DESCRIPTION OF RECORDS

(a) Records corresponding to case files which have exceptional value because of the highly significant nature of the research involved, or the uniqueness of the case files and images.

- (b) Records corresponding to case files which lack permanent value.
- c. Summary data and related records.
 - (1) Summary data, and/or records reflecting significant findings or containing scientific data not duplicated elsewhere which serve as backup for notebook entries and/or reports.
 - (2) Summary data, and/or records that do not reflect significant findings, that are routine or duplicative in nature, or those that do not serve as backup for notebook entries and/or reports.
- d. Source data files, punch cards, magnetic tapes, recorder charts, preliminary drawings, film, questionnaires, survey etc., used to collect and assemble data of a preliminary or intermediate character generated from such processes as experiments or observations of a routine, repetitive nature and used for reference in arriving at determinations in the conduct of research projects. Reduced data as described above.
 - (1) Textual records.

AUTHORIZED DISPOSITION

Permanent. Transfer to NARA when 20 vears old. For motion pictures, transfer an original negative or color original plus sound and projection print whenever feasible. For video recordings, transfer the original or earliest generation of the recording and a dubbing whenever feasible. Existing finding aids should be included in the transfer. (NOTE: During archival processing, the NARA Motion Picture, Sound Recording and Video Branch [NNSM] may destroy without further agency concurrence any material found to be lacking in permanent value.)

Temporary. Destroy after 20 years.

Temporary. Destroy when 7 years old.

<u>Temporary</u>. Destroy when 2 years old or sooner, if no longer needed.

<u>Temporary.</u> Destroy when the program manager determines that the records

DESCRIPTION OF RECORDS

- (2) Electronic record files.
- (3) Raw test data, consisting of Mitchell camera film, Askania Phototheodilite film, and Fastex film; film recorded charts, graphs, trajectory data oscillograms, and telemetry oscillograms.
- e. Raw data, summary data, and other background materials recommended by the Project Manager for permanent retention due to its continuing research and background value.

2. Rejected Research Project Proposals

All proposals for research projects consisting of unsolicited contract proposals from individuals and organizations which were not funded by NRC.

3. Research Program Files

Records consisting of documents, data and correspondence relating to the formulation, planning, direction, review and evaluation of research in major program areas.

- a. Documents generated, received, signed or maintained at the Office Director level.
- b. Documentation at the division level and below.

4. Research Project Case Files

AUTHORIZED DISPOSITION

have no probable value.

<u>Temporary.</u> Destroy when Program Manager determines that the records have no probable value, erase, and reuse tapes.

<u>Temporary.</u> Destroy when 5 years old or 1 year after completion of final evaluation report of test project, whichever comes first.

Permanent. Cut off files upon completion of the project and retire to IRMB when 2 years old. Transfer to NARA when 20 years old. Present volume: 0 cubic feet. Annual accumulation: 5 cubic feet. (NOTE: During archival processing, NARA may destroy without further agency concurrence any material found to be lacking in permanent value.)

<u>Temporary.</u> Destroy 2 years after disapproval of funding.

Permanent. Cut off files annually and retire to IRMB when 2 years old. Transfer to NARA when 20 years old. (refer. schedule 1-2.2.a.) Present volume: 100 cubic feet. Annual accumulation: 10 cubic feet.

<u>Temporary</u>. Cut off files annually. Destroy when 10 years old. (refer. schedule 1-2.2.b.)

DESCRIPTION OF RECORDS

Technical documents, memoranda, monthly or quarterly highlight reports, program reports, status reports, management letters, original of tracings of drawings, specifications, and duplicate photographs of completed products, or apparatus, and references pertinent to a project maintained by the Project Manager.

- Case files deemed by the Nuclear Regulatory a. Commission or the National Archives and Records Administration to have exceptional value because of the highly significant nature of the research involved or uniqueness of the case file. Included are files that:
 - 1. Show development of new and significant techniques.
 - 2. Relate to new and significant methodology and materials.
 - 3. Were the subject of Congressional investigation or came under intensive public scrutiny.
 - 4. Result in judicial decisions or legislative activities affecting the functions and activities of the NRC.
 - Result in significant changes in regulatory 5. activities and functions of the NRC.
- All other case files. b.

Temporary. Destroy when 20 years

5. Laboratory Notebooks

Scientists' notebooks containing scientific and technical data resulting from research work, as follows:

- Notebooks containing data essential in a. establishing patent or invention rights excluding those retained permanently under Item 5.b. below.
- b. Notebooks corresponding to permanent Research

AUTHORIZED DISPOSITION

Permanent. Cut off files after completion or termination of the project and retire to IRMB when 2 years old. Transfer to NARA in annual blocks when 20 years old. Present volume: 35 cubic feet. Annual accumulation: 5 cubic feet.

old.

Temporary. Cut off files upon completion of project. Destroy 6 years and 3 months after completion or termination of the related project(s), or one year after final patent action, whichever is later.

Permanent. Cut off upon completion of

DESCRIPTION OF RECORDS

Project Case Files and containing significant scientific and technical data required for complete documentation of experiments some of which may contain patent and invention rights data.

c. Notebooks containing data determined by competent scientific or technical personnel either to be duplicated in technical reports or elsewhere in project case files, or to be of such routine or fragmentary nature that their retention would not add significantly to the project file.

AUTHORIZED DISPOSITION

project. Retire to IRMB 1 year after completion or 1 year after approval/disapproval of the patent office, whichever is later. Transfer to NARA when 20 years old. Present volume: 0 cubic feet. Annual accumulation: 2 cubic feet.

<u>Temporary.</u> Destroy when 5 years old or 1 year after completion of final report, whichever is sooner.
