Program Action Tracking System (PATS)

This system was installed for the Office of the Chairman on January 5, 1983. This system enables the assistants to the Chairman to maintain information and print reports associated with the major themes of the NRC Policy and Planning Guidance (PPG), along with Management and Support. The data in the system is stored for direct access at the National Institutes of Health, Division of Computer Research and Technology (NIH/DCRT) and is edited and updated in the Chairman's office utilizing an IBM "Displaywriter" as a terminal. The "Displaywriter" is also used to print reports for immediate use.

Retain until it has been determined that data are no longer needed; erase and reuse tapes.
