**Office of the Director of National Intelligence
OFFICE OF THE INSPECTOR GENERAL OF THE
INTELLIGENCE COMMUNITY**

Records Control Schedule

Mission

The Office of the Inspector General (IG) was initially established in 2005 pursuant to Section 8K of the Inspector General Act of 1978, as amended by Section 1078 of the Intelligence Reform and Terrorism Prevention Act of 2004. The Intelligence Authorization Act (IAA) for FY 2010 (P.L. 111-259) broadened the authority of the ODNI Office of Inspector General by establishing the Inspector General of the Intelligence Community (IC IG) with the authority to initiate and conduct independent audits, inspections, investigations, and reviews of programs and activities within the responsibility and authority of the Director of National Intelligence (DNI). The IC IG promotes economy, efficiency, and effectiveness in the administration and implementation of such programs and activities and prevents and detects fraud, waste, and abuse. The broad authority of the IAA allows the IC IG to identify and investigate systemic IC issues that impact the DNI's ability to achieve intelligence integration. In addition, the IC IG provides leadership and coordination to other IC Inspectors General through the Intelligence Community Inspectors General Forum (IC IG Forum), which was also established by the IAA for FY 2010.

- (6) Reports expeditiously to the Attorney General whenever the IC Inspector General has reasonable grounds to believe there has been a violation of Federal criminal law;
- (7) In coordination with the General Counsel, assists and cooperates with the Department of Justice and other Federal agencies in investigating alleged violations of criminal law involving ODNI programs, activities or employees within the DNI's authorities or responsibilities;

Application of the Records Control Schedule Disposition Instructions

The disposition instructions in the records control schedule are mandatory. Any Federal records received or created by personnel or contractors on behalf of the Office of the IC IG not specifically covered by this schedule or the General Records Schedules are to be retained until such time as an applicable disposition authority approved by the National Archives and Records Administration (NARA) is obtained. To take into account the fluid nature of electronic filing, those responsible for implementing this schedule should be aware that record copies of record types described in this schedule are to receive the prescribed disposition wherever they are filed.

The Information Management Technical Officer with responsibility for the records of the Office of the IC IG will support effective implementation of the disposition requirements of this schedule through the development and issuance of appropriate operational guidance and supplementary instructions necessary to assure adequate and proper documentation of the official mission, responsibilities, and actions of the office.

Note on Sensitivity of OIG Records

The majority of the records addressed in this schedule are classified as national security information in accordance with statutory and national policy directives. Most of the records series described in this schedule contain information classified to the highest levels, requiring planning for their continued security until they are declassified or destroyed. The user of this schedule should assume the subject records are highly classified unless noted otherwise. In addition, certain series may contain material covered by the Privacy Act, Freedom of Information Act, or Inspector General statutory restrictions other than National Security, such as law enforcement information.

Note on Vital Records

Although no vital records are currently identified in this schedule, records management personnel should identify such records so that they can be accessed quickly when needed. Vital records are (1) those that specify how the ODNI will operate in case of an emergency or disaster, (2) those necessary to the ODNI's continued mission critical operations during and after an emergency, and (3) those that must be preserved to protect the legal and financial rights and interests of the ODNI and of persons affected by the ODNI.

Note on Electronic Records

The IC IG and staff maintain record copies of many official files in electronic form on both shared and individual network drives. In addition, some staff members may keep some files on their individual local drives, although this is discouraged. Records kept on both the network and local individual drives that are not disposable under the General Records Schedules (GRS) are to be moved or copied to the network shared drives or systems or kept in paper files, as appropriate, to be retained or destroyed in accordance with an approved ODNI disposition authority.
